

BOKP SERIES BREAKOUT KITS

Opticonx BOKP Series Breakout Kits are designed to provide a 2.0mm or 3.0mm direct termination solution for cable containing 900uM buffered fiber.

Opticonx BOKP Series Breakout Kits are designed to quickly and easily breakout and directly terminate up to 24 900uM fibers with 2.0mm color coded tubing or 12 900uM fibers with 3.0mm color coded tubing. Each of the 900uM buffered fibers are routed into individual color coded tubes via protective housing for identification, protection, fiber management and direct termination with industry standard LC, SC, ST and other industry standard connectors.

Application

Fiber identification, management/ routing, protection and direct termination of the individual 900uM buffered fibers in 2.0mm or 3.0mm tubing.
