

Opticonx Mechanical Splice On Connectors

Opticonx SM SC/APC 2.0mm Mechanical Splice On Connector — FACSMSCA-2

Application:

Fiber optic mechanical splice on connectors are the fast, easy way to complete your fiber installation. Factory terminated and polished, these connectors help eliminate the need for field termination and polishing when paired with your mechanical splicer. They also eliminate the need for splice trays.

Choose from a variety of fiber types, connector types, and cable size options (900µm, 2mm, 3mm). Opticonx's selection of fanout kits and breakout kits help complete the installation.

Features:

- ◆ LC, SC or ST connectors
- ◆ Singlemode or multi-mode glass
- ◆ UPC or APC polish styles
- ◆ 900µm, 2mm or 3MM cable ODs
- ◆ High-quality ceramic ferrules
